BREAK WITH THE PAST

ZERO

From the cradle of Italian writing culture comes the next chapter in the evolution of modern writing style. ZERO is the gateway to a new generation of writing instruments combining sartorial presence, precision engineering and uncompromising strength.

Welcome to the new decade.

Features

Open Edition

MODES:

-  Fountain Pen
-  Rollerball Pen
-  Ballpoint pen

MATERIALS:

Resin

TRIMS:

Special Bronze alloy (Br8)

FINISH:

-  Gold
-  Palladium
-  Gun-Metal Rutenium
-  Ultra-Black Rutenium

NIB:

Stainless Steel or 14K gold

GRADES:

Extra Fine, Fine, Medium, Broad, Stub 1.1, Stub 1.5 (steel nib only)

FILLING SYSTEM:

Cartridge, Converter

GOLD

PALLADIUM

GUN-METAL
RUTHENIUM

ULTRA-BLACK
RUTHENIUM

ZERO

A new aesthetic for a new decade: Montegrappa moves the game forward with a design manifesto built on bold innovation. Modern and muscular, ZERO resets the rules of writing instrument styling.

ZERO's confident lines are the result of perfect geometry and precision finishing: refined design and engineering from Italy's most sophisticated pen makers.

- ◆ The Montegrappa ZERO is built for the rigours of modern life, offering ultra-reliable mechanical performance in a casing made from high-density acrylic, sapphire glass and hard-wearing bronze.
- ◆ Trims made from high-specification, Br8 bronze alloy are hypoallergenic, long-lasting and exceptionally hard. Contrasting satin-brushed and polished finishes evoke the hallmarks of prestige timepieces.
- ◆ An all-new clip design houses our famous rolling sphere in a geometric profile made with high-precision diamond cutting. Hard-wearing brass is hand-finished to accentuate its precise angles.
- ◆ Hard-wearing galvanic finishes are made to last on this sturdy metal base. Choose from palladium, yellow gold and two stealth ruthenium tints to coordinate trims with your favourite timepiece.

Selling Points

ZERO is a new Signature family of Montegrappa writing instruments – the first tier of a Contemporary Collection that fuses modernist Italian lines with mechanical precision and refinement.

Inspired by prestige timepieces, an innovative crown features sapphire glass set in a miniature bezel. The Montegrappa ZERO is designed to complement the wrist as well as the hand.

A muscular, chamfered clip provides authoritative pocket presence. Made of brass, our pocket-clips are stress-tested for more than 20,000 actions and proudly brandish Montegrappa's famous script logo.

ZERO is made in fountain pen, rollerball and slimline ballpoint modes. Fountain pens are fitted with a converter/cartridge-fed nib, available in options of 14K gold and precision steel.
