Some are born tycoons, but for the rest of us, MONOPOLY is a gateway to the world of wheeling, dealing and wealth creation. Remember your first big hotel acquisition? Remember crushing Dad with its outrageous rent? MONOPOLY is timeless.

The world's biggest board game is found in hundreds of millions of homes worldwide. For its 85th anniversary, Montegrappa enters the game with the ultimate player's pen. A pair of audacious designs celebrates the joys of family, friendship and the thrill of playing. Roll the dice!

Two original, limited-edition volumes salute the world's favourite board game: MR. MONOPOLY and 85TH ANNIVERSARY are steeped in tycoon style – handcrafted into a glittering fusion of precious metals, gemstones and Italian bravado.

Each volume uses dazzling, art-deco settings to reproduce MONOPOLY's famous iconography in meticulous, low-relief detail. The game's iconic mascot's top hat and cane inspire a diecast crown and clip – designed for maximum pocket presence.

MONOPOLY L.E. arrives in a private-edition gameboard made by Montegrappa, along with eight sterling-silver play tokens. Concealed travel compartments house pen and play pieces. Feel like a winner before the game has even begun!

The background of the image is a dense collage of Monopoly L.E. banknotes and Chance/Community Chest cards. The banknotes are in various denominations: 1 (white), 5 (orange), 10 (light blue), 20 (light green), 50 (purple), and 100 (yellow). Each banknote features a large circular denomination, a smaller square denomination, and a small illustration of a building. The cards are white with black text and a thin black border. They are scattered across the collage, with some overlapping the banknotes. The overall color palette is vibrant and matches the Monopoly L.E. theme.

CHANCE

Each volume celebrates 85 years of MONOPOLY with two numbered editions in sterling silver (85 fountain pens, 85 rollerballs) and 18K gold (8 fountain pens, 5 rollerballs).

CHANCE

Precious-metal clips are created using the rare jeweller's art of lost-wax casting. Striking, art-deco architecture references MONOPOLY's origins and a golden age of pen design.
